

## Be Recognized for Your Knowledge in Headache Medicine

Advanced Qualification in Headache Medicine Certification (AHQ) recognizes your knowledge and experience in caring for the most prevalent neurological disease in the world.

If you classify, treat, and manage:

- Primary headaches
- Secondary headaches
- Facial pain and cranial nerve disorders

Learn more

Then you may be eligible for the AQH examination. A candidate must be licensed, prescribing providers who independently evaluate & manage headache patients for at least 3 years.
